Hat Shipment Goods to China

WASHINGTON, (AP)—Fiorello H. La Guardia, director-general of UNRRA, announced Tuesday that he has stopped shipment of all relief goods to China except vital foods. He said the action was taken because of China's inability to transport goods inland to needy areas.

It was contended also that some relief goods were being diverted for political ends.

Mr. La Guardia's action cut off shipments to China of farm machinery, fertilizers, fishing boats, trucks, steel rails, locomotives, clothing and textiles.

(A Shanghai dispatch said more than 250 UNRRA employees there sent a message to Mr. La Guardia that valuable relief supplies were being wasted, were deteriorating and were being stolen "while the starving continue to starve and the needy wait without.")

(The message said it was the considered judgment of the signers the Chinese government was improperly handling UNRRA supplies and services.)

Cheng Pao Nan, representative here of the Chinese National Relief and Rehabilitation Administration, said Mr. La Guardia's action means stoppage of the major portion of the entire UNRRA program for China, amounting to about \$600,000,000.

Cheng, back from Shanghai only two days, denied there is a heavy accumulation of UNRRA goods in Shanghai or other Chinese ports.

Meanwhile diplomatic authorities predicted the ambassadorial assignment given 70-year-old John Leighton Stuart, veteran Presbyterian missionary, will bolster Gen. George C. Marshall's struggle to unite China's Communist and Nationalist factions. President Truman has nominated Mr. Stuart as envoy to Generalissimo Chiang Kai-shek's government.

25 Servicemen and Crew Killed in U.S. Plane Crash

Two Men Hurt; Cause Unknown

SASKATOON, (CP)—Walter Jones and Thomas Campbell, both of Saskatoon, were in hospital Tuesday night in "very critical" condition, and R.C.M.P. were investigating how the men were injured.

A telephone call to police from a woman residing at a man "dazed and covered with blood" was trying to enter her house. They placed up the man and then found a second man unconscious on the floor of an automobile parked near the house.

The broken bodies of the occupants were scattered among the wreckage along a 400-foot stretch of the highway, and a 17 through dense woods 200 feet from the hill-top.

Army rescue forces who struggled up a steep, cobblestoned road, reported that by daybreak they had recovered about 20 bodies and taken them to Holyoke funeral home.

Five bodies were believed still in the smoking, charred wreckage that was spread in small pieces over the quarter mile square area.

During the morning, many hours after the crash, the bodies were being examined by a coroner and smoking and occasional bursts of gunfire were heard from the wreckage.

The investigation is being handled by the R.C.M.P. and the local fire department. The bodies are being taken to the Holyoke funeral home.

The resolution said:

1. The failure of the dominion and provincial governments to reach an agreement as to the future division of fiscal and economic responsibilities has seriously impeded all efforts of Canadian municipalities to co-operate with both the federal and provincial governments in the establishment of a stabilized peacetime economy.

2. The proposed division of the government, on fiscal matters, would make possible the consummation of the post-war reconstruction plans of the municipalities;

3. That at the earliest possible date another conference should be called;

4. In the event of any "extended delay" in reaching agreement, the following federal-provincial agreement should be given immediate consideration:

a. That the federal government reduce the municipal tax on the cost of all future unemployment relief for employees of the federal government;

b. That the federal and provincial governments pay municipal taxes, or grants in lieu thereof, and local improvements or betterment charges, on all crown lands within municipal corporations;

c. That the federal government ensure an adequate national housing and slum-clearance act;

d. Policy Statement

1. That the federal and provincial governments make a definite and early statement of their policy with respect to financial assistance to municipalities for public works projects.

2. That the federal government should also suggested both federal and provincial governments should establish a national conference on the division of fiscal and other responsibilities and that provincial governments policy of conferring with provincial municipal organizations on legislative affecting municipal affairs of government.

Find Stolen Car: Driven 3,000 Miles

HAMILTON, (CP)—A long distance car theft championship may well be claimed by the city police with the automobile recovery of a car stolen here June 12. The car was found in Ontario, 3,000 miles away, after traveling 3,000 miles. No trace has been found of the thieves—who are probably still traveling.

Viscount Alexander Dons Wide-Brimmed Hat at Calgary Stampede

When Canada's new and famous governor-general, Viscount Alexander of Tunis, arrived at Calgary this week he entered wholeheartedly into the stampede spirit. Here the governor, complete with cowboy hat, chats with Mayor Watson, left, in complete cowboy regalia, and R. W. Ward, president of the Calgary Exhibition association, who wears a bright-colored cowboy dress-up shirt. Highlight of the visit to Calgary for the Alexander children was their first sight of real Indians and range riders.

Butter Price Up One Cent

Retail price of butter will advance one cent a pound Thursday in stores that have to replenish stocks following a one-cent advance in wholesale prices made this week. First grade wrapped prints are now 40 cents wholesale back to the April price level.

Churning cream prices were also advanced to farmers. Creameries are now paying on butter the same as in May, special grade 47 to 49 cents including the dominion subsidy with first grade two cents less, second, seven cents less.

The inner Zionist council gave the go-ahead signal to its own president, to the Jewish Agency's executive committee, and to the National Council of Palestine Jews. Work out plans for non-co-operation with the British government.

The Arab higher executive committee who declined to be quoted by name said the committee already had drawn up a program to tighten the Arab boycott of Jewish goods and to use non-co-operation as a "preliminary measure" in opposition to continued Jewish immigration.

Arabs and Jews Make Plans For Action Against British

JERUSALEM, (CP)—The inner-Zionist council Tuesday empowered three Jewish groups to draft detailed proposals for a campaign of non-co-operation with the Palestine government unless arrested Jewish leaders are freed from detention and operations against the British are suspended.

The Arab higher executive committee meanwhile weighed its own proposals for non-co-operation with the British government.

The inner Zionist council gave the go-ahead signal to its own president, to the Jewish Agency's executive committee, and to the National Council of Palestine Jews. Work out plans for non-co-operation with the British government.

Three Escape Manitoba Jail

WINNIPEG, (CP)—Three men serving sentences ranging from one year to 20 months escaped from the Manitoba provincial jail at Headingley Wednesday.

The three were a 16-year-old juvenile from Portage La Prairie, Man., serving two years less a month on several charges, Joseph Matkovic, 20, of Brandon, Man., sentenced to one year and John Kutcher, 23, of Winnipeg, serving a year for theft of an automobile. They had been working in the prison barns and plying.

# 500,000 Britons Hope to Settle in Dominions in Next Few Years

## Paper Says Half of Them Apply to Come to Canada

By Chester Bloom

OTTAWA.—According to a recent issue of the *Graphic*, more than 500,000 Britons have applied for passages to the dominions. The British *Graphic* says that applications for passages to Canada total more than 250,000. The *Graphic* says that the line alone has a waiting list of more than 17,000 prospective Canadian settlers with hundreds of others inquiring daily.

Not until next year, however, or later, at the earliest, says the London newspaper's report, will shipping companies begin to be able to take emigrants, as vessels are released from war service. The few that are at present available are fully booked by priority passengers. Eighty-eight passenger liners still being requisitioned for troop movements and other government business.

All applicants for emigration to the dominions have to be approved by the respective dominion's office in London before the shipping companies can put them on their sailing lists.

Besides the 250,000 applicants to emigrate to Canada, the *Graphic* says that desiring to go to the other dominions include: New Zealand, 120,000; South Africa, 120,000; Australia, 150,000. Some of the Australian applications are for the purpose of nearly two years. The prospective emigrants range from unskilled laborers to tradesmen, farmers, retired business people, chemists, artisans and professional men.

## Must Give Up Bread or Soup

LONDON. (CP)—When dining out, Britons may have bread but no soup—or soup but no bread—on a three-course meal, Food Minister Strachey said Tuesday.

The minister said that bread may be taken at the main meal with two other courses, when bread is rationed. But if a second course is taken, then comes into effect July 21, a main meal as before would consist of three courses except that hereinafter no longer will be classed as a main course.

## Sidney Hillman, Labor Leader, Dies

POINT LOOKOUT, N. Y. (AP)—Sidney Hillman, 39, labor leader and national chairman of the C. I. O. political action committee, died Wednesday.

Hillman was pronounced dead of a heart ailment by Dr. John Cahill, a neighbor. Dr. Cahill said the labor leader had been found unconscious in bed by his wife.

Hillman was president of the powerful Amalgamated Clothing Workers of America and vice-president of the C. I. O.

Born in Zagare, Lithuania, he came to the United States in 1907 and worked in the garment industry.

## Plan Publication Nazi Documents

LONDON. (ONA)—Preliminary agreement has been reached between representatives of the United States department of state and the British foreign office for early publication of German foreign office documents covering the last 25 years. It has been learned, American officials here said, that the British concluded the first stages of the negotiations regarding publication of the documents were signed by the armed forces of the two countries.

The documents will offer open proof, the experts state, of the aggressive aims of German foreign policy and of the role of Germany in the world.

There is not a small business man in the world who has any more elbow room to do business than I have," he added. "This fight goes down merely meant 'the tooth and claw of the jungle.'"

Mr. Gillis said the worst feature of the budget was its failure to reduce the tax burden on the lower income groups. It would have the effect of creating further problems for the working man.

The work of selecting, editing and translating the papers will be entrusted to international historians and experts. Only a small number of the documents must be read in the Nuremberg trials. The foreign office papers will be published in the *Nuremberg* trial record in shedding light on the diplomatic manoeuvres and intrigues of the last war.

A delicate question which remains to be solved, which will have to be tackled on a higher political level than that of the conference so far dealing with the subject, is whether other papers should be invited to contribute in the task.

There is apparently some reluctance to bring other governments into the discussion because of the fear in some quarters that they may result in preventing publication of certain documents in full.

The Russians assert that they have some important German foreign office documents. Although these have not yet been produced, they are said to be in the hands of London or Washington. It was reported that the documents would be made available to the public.

It remains to be decided whether the Soviet government will be asked to publish its documents, or whether they will be published by the Anglo-American press.

Mr. Adamson, who sketched in detail the position of gold in the Canadian economy, said that several suggestions to offset this situation were being considered.

1—Creation of a "free market" for gold in Canada.

2—Permission for corporations and banks in Canada to use gold as part of their reserves.

3—Permission for any individual or corporation, Canadian or foreign, to buy and sell gold on the free Canadian market, and abolition of all restrictions on the import and export of gold.

These were the things Mr. Adamson suggested for the good of the Canadian economy, and the threatened mining industry itself.

1—Return to the 50 percent depletion allowance to both mines and shareholders.

2—Wipe out the excess profits tax on all mining.

3—Gold as the supreme "hedge" against inflation, he said. He cited Australia as a country that suffered from deflation in the mining industry. Unless these regulations are enacted in Canada, he said, in a few years before we in Canada may be losing people to return to the mining industry in northern Ontario and Quebec," he said.

It was in one of the few electioneering outbursts that one of the deaths occurred. An electoral commission official was the victim and 11 to 12 persons were shot or clubbed. The other death is reported to have occurred in Guadalajara.

The flying machine of several hundred machines equipped with machine guns, was shot down in front of Mexico City's national palace all day, attesting to the quiet of the city.

But the voting pace was terrifically slow, proceeding at the rate of only 50 ballots an hour. The polls were required by law to stay open as long as possible to accommodate any voters in line at 5:00 p.m.

In one polling place in Mexico City, when the polls opened at 9:00 a.m. with a ceremony in which ballots were distributed, a bullet-battered crowd of officials came with red faces. When they opened their supposedly empty boxes they found in them 27 ballots for the Mexican and one for the United States.

All voters were searched by police, but little effort was made by the voters to keep the ballots secret. All Mexican polling places are in open streets with boards stretched over the boxes constituting the booths. Voters mark their ballots in front of the officials, then fold and drop them into the boxes.

No comprehensive returns will be available, it is thought, before Thursday.

## Claims Taxing Cooperatives Hurting Canadian Democracy

By H. R. Hardy

OTTAWA. (CP)—C. H. Hardy, C.C.F. member for Cape Breton South, warned the government Tuesday that taxation of co-operatives amounted to confiscation and was a direct way to destroy the people of Canada from the democratic form of government was to start taking away from them the things they had built for themselves.

"Make no mistake about it," he declared, "that while we succeeded in defeating the Nazi philosophy in this war, the Nazis were not in Europe and totalitarianism did not exist only in Germany, Italy and the European countries."

"People who understand the co-operative movement have no illusions," he added. "This fight goes deeper than the budget. The fight is going on between the people's organizations and the cartels of the North American continent."

Finland's Minister, A. J. asked Mr. Gillis if he thought the government had done what the cartels wanted it to do.

"Does he think we did what the Income Taxpayers' association asked us to do?" said Mr. Hardy. "Not by any means. We received over 30,000 letters from taxpayers, and we refused to do it."

Mr. Gillis persisted that private enterprise in Canada today could produce sufficient sugar to supply all Canadian needs. It was necessary that the government should encourage sugar production in Canada, based on estimates on the basis of 1940-41 figures.

There is not a small business man in the world who has any more elbow room to do business than I have," he added. "This fight goes down merely meant 'the tooth and claw of the jungle.'"

Mr. Gillis said the worst feature of the budget was its failure to reduce the tax burden on the lower income groups. It would have the effect of creating further problems for the working man.

The work of selecting, editing and translating the papers will be entrusted to international historians and experts. Only a small number of the documents must be read in the Nuremberg trials. The foreign office papers will be published in the *Nuremberg* trial record in shedding light on the diplomatic manoeuvres and intrigues of the last war.

A delicate question which remains to be solved, which will have to be tackled on a higher political level than that of the conference so far dealing with the subject, is whether other papers should be invited to contribute in the task.

## Refusal Allow Deportations Is Obstacle to Negotiations

By Norah Pines

BUENOS AIRES. (CP)—Argentine President Juan D. Peron's refusal to allow deportation of Ludwig Freude, Richard Steudt and Heinrich Doerge, all of whom are regarded by Allied authorities as the most important Nazi leaders in South America, is the chief obstacle in the current negotiations between the United States Ambassador George A. Messersmith and officials of the Argentine government concerning repatriation of 100 Nazis to Germany.

President Peron does not believe these men to be Nazis, basing this contention on the fact that the United States list of Nazi party members, released last March, failed to include the names of Freude, Steudt and Doerge.

German-born Ludwig Freude, whom German embassy officials during the war are said to have referred to as "the head of the German community," obtained Argentine citizenship in December. Freude, who was a member of the Gestapo, is said to have been a member of the Argentine alien detention camp during the war.

Following Argentina's break with the Axis in 1944, the German embassy in Buenos Aires was closed. Freude, who was a member of the Gestapo, is said to have been a member of the Argentine alien detention camp during the war.

Freude, who was a member of the Gestapo, is said to have been a member of the Argentine alien detention camp during the war.

## Parish Conference Said Depressing

By Reiman Morin

PARIS. (AP)—For the majority of correspondents who reported it, the foreign ministers' conference has been, to summarize the general feeling, profoundly depressing.

For the people of Europe, it was much worse than that.

A very great distance lies between the Paris and the rest of the world. It is the distance between the world of the world and the world of the world.

They have returned to Paris from a trip across Europe. Conditions in all but a few countries are bad. The world is a very different place.

They need a promise, a future, a hope, a goal, a direction, a clearing bubble and eyeing gutters of the world and children asking for food. The present, at best, is difficult. At worst, it is unimaginable.

Even so, it would be endurable were any signs of hope on the horizon. None has come from the conference in Paris.

The basis for peace with Italy is resented in some countries as "too soft" and the Italians condemn it as "degrading." There is an agreement to internationalize the city of Trieste—and both the Yugoslavs and Italians already have sworn to defend Trieste to the death.

The fact remains that Europe's political problems are almost as difficult as its topography. Trieste was a problem for the last war.

What the four ministers have done is what statesmen have always done—gambled for time.

Alexanders View Scenes at Banff

BANFF.—Viscount Alexander, governor-general of Canada, Viscount Alexander and his three children, ended their first day in the Canadian Rockies with a visit to the town of Banff.

The three children, Shane, Brian and Rose, were delighted with the scenes of beaver working at dams and houses in their natural habitat, mountain goats and big horn sheep climbing their ranges, and the buffalo, deer and elk in the park paddocks.

The governor-general inspected the Banff Club, which acted as a guard of honor for him at the C.P.R. station. He was awarded a silver pin, the mark of good conduct for members of Club peaks.

Strike in Dublin Lasts Five Months

DUBLIN. (CP)—School rooms are vacant and children are on a prolonged strike in Dublin as the result of a 15-month teachers' strike.

The strike has cost the Irish National Teachers' organization \$400,000 but "war chest" is being maintained by 10,000 Irish teachers outside Dublin who contribute one-tenth of their salaries weekly.

Mexico's oil output is soaring to a near-record level.

Japanese "irregulars" are still fighting in rural Philippine areas.

Auckland, New Zealand, is shipping 10,000 food parcels to Britain weekly.

## The Third Column

## London Letter

By Charles Nichols and Basil Dean

Although retail prices have soared in E

...in the last six years and are still rocketing upward, nobody in the kingdom knows in statistical terms just what the cost of living amounts to.

The last cost-of-living index was computed in 1914 when a man's ready-to-wear suit cost about \$12 against more than \$70 today; that is the only index which the government uses, it has had to be used ever since as the statistical measuring rule.

On the basis of the 1914 index, the cost of living has dropped from 104 percent above the 1914 base to 103 percent above the 1914 base. To the British warner who is paying more for virtually everything he buys today, this mathematical calculation is infuriating.

One comforting aspect of the situation is that the government knows its index is just a joke and is willing to do something about it. Chancellor of the Exchequer Hugh Dalton has set up an ad hoc committee to

rounding up an advisory committee to re-  
the index and bring it up to date. The commi-  
may study as part of its job the Cana-  
ring cost index which served with a consi-  
able degree of accuracy to provide a base  
onuses in Canadian industry during the w-

It is felt necessary to have the new insurance ready by 1948, when the new social insurance scheme will probably be brought into force. It will require some accurate measure of life expectancy as a basis for benefits and assistance.

The old statistical table was based on

average British worker's living costs. In the 1950s the worker did not pay income tax, spent 60 percent of his budget on food and only four percent on such items as insurance, tobacco, entertainment and holidays. Now the worker pays 10 percent of the tax on his

In the absence of any revised official index, the newspaper Daily Mail has drawn up a table comparing some ordinary 1914 prices

Here are some of them: Alarm clocks, 1

3.45 (in 1940) to \$4.35 today; bedsteads 1  
\$8.50 to \$89.50; frying pans from 15c to \$  
hot water bottles from 75c to \$2.90; travel  
trunks from \$12.95 to \$25.95; umbrellas 1  
1.10 to \$6.50; vacuum cleaners from \$14.1  
\$3.95.

Incidentally, all these prices are based on standard grade articles.

\* \* \*

As Britain's summer crops of fruit and vegetables trickle into retail stores through-

Housewives point to the often fantastically high prices which they have to pay for commodities such as vegetables (85 cents for a small bunch of green beans).

vegetables (3 cents for a small bunch of green peas, 10 cents for a boiling of green peas which scarcely serve three people). Farmers simultaneously complain that the prices they receive from wholesalers are scarcely enough to cover costs, and that they often wind up with a loss.

The powerful and growing Agricultural Workers' Union has crystallized the controversy into a single, all-embracing demand: That the vegetable distribution be immediately taken out of its present free-enterprise framework.

The workers talked bitterly of "profit-sucking distributors" whose exorbitant profits had kept prices all down the line.

...unt for the spread, often running from 1,000 percent between the price the factors and the price the housewife has to pay. Promptly, the official labor and trade union newspaper "Daily Herald," set out to judge the union's demand with an investigation.

It started off by blaming the retailers.

says, ask 10 cents for the cheapest lettuce, 6 cents for an average head, which they get at the great Covent Garden wholesale market for one or two cents each, or four cents for super. The farmer gets about six cents for two heads. This means that out of the \$3.54

housewives pay for two dozen lettuce, represents middlemen's profits and distribution costs. Similar figures apply to other commodities like cabbage and green peas.

In the country towns, where vegetable f

all around, the "Herald" investigator found that, assuming a price of 12 cents per pound, the housewife would pay about \$450 for the produce of one acre; of this the farmer would only \$100—although he delivers directly to retail stores. That \$100 represents a net

When the investigation had reached that point, the retailers answered back. London's grocers said they had to pay exorbitant prices to the wholesalers, and that much of the

Further, they said, they must contend with the pernicious "conditions of sale" which the wholesalers impose. If a retailer wants a supply of scarce cherries (controlled price) for instance, they must buy a large quantity of fruit, much of which may be under weight or of poor quality that heavy waste resulted.

he has to take large quantities of cabbage  
lettuce at top prices. Somehow, he has to re-  
these losses. If he doesn't buy cherries, his  
omers are dissatisfied; if he complains a  
these "conditions of sale" which are str-

The "Herald" has not so far succeeded in shifting the blame for present conditions

any one section of the distributing trade; (2) to claim to have found near-unanimity and agreement among farmers, wholesalers and retailers alike in support of comprehensive marketing schemes which will accomplish three purposes: (1) To guarantee fair prices to farmers, enabling them to meet their workers a decent wage; (2) To regulate production and distribution of foodstuffs so as to control distribution costs and distributors' profits; and avoid unnecessary waste; (3) To insure that the consumer gets fruit and vegetables at reasonable prices.

### Sketching Taught To Large Class

A large attendance at Tuesday night's leadership training in the Museum of Arts enjoyed a one-hour class in charcoal drawing under the direction of Murray MacDonald and Mrs. Dorothy Barnhouse.

MR. MACDONALD OUTLINED simple charcoal sketching to the class, emphasizing the need for leaders to teach simple sketching to children. Mr. MacDonald drew several quick sketches for work on pointing out balance and proportion required. All members were given color and paper and took part in actual sketching.

Recreational Supervisor McGuire spoke to the class upon the necessity of good leadership, outlining the amount of planning necessary for a well balanced recreational program. He said that the people living in the communities should plan their own programs with the

assistance of outside organizations, if necessary, but that no outside organization should plan programs or tell the people how to live down in their own community.

FRANK HELLER, secretary of the Edmonton Boxing and Wrestling Commission, gave an interesting talk on boxing and wrestling and outlined the work and purpose of the commission.

Mrs. J. McEachern taught choral singing and presented three numbers by her teen age choral group.

An interesting period of games was conducted by Gordie Higgins and Jack Kelly and the class broke into groups for work on handicraft projects, stage decoration, drama, music, and sports instruction.

The old wheeze that ostriches "bury their heads in the sand" was probably started by early desert nomads who saw ostriches feeding on the horizon. From this distance the birds' head would appear to be buried in the sand.

### Swimming Pools' Revenue is Up

Edmonton's three swimming pools are proving most attractive this year and revenue up to June 30 last was \$2,085.60 in excess of receipts for the same period last year, according to a statement issued Tuesday by A. W. Haddow, city engineer.

Equally popular, the municipal golf course shows an increase of \$2,856 in revenue for the period ended June 30 this year compared with last season on the same date.

REVENUE FROM the swimming pools during the 1946 period was \$7,497.60, compared with \$5,412.05, and from the golf links \$10,445.75, compared with \$7,589.15.

The south end swimming pool appears to be the most attractive of the three being operated as the revenue from this pool amounted to \$2,732 with the west end pool ranking second with \$2,597.70. Receipts from the east end pool amounted to \$2,165.90.

She is a member of Hi-Y, Soneyao and Ripples clubs and of West End Edmon-Teens group. Her hobbies are drawing, sketching, painting in watercolor and oils. She prefers portrait work. Her sports include swimming, surfing, tennis, soft ball, and her ambition is to become an interior decorator. She is a member of Christ Church.

### Indian Tracker to Hunt Lost Pilot

Flight strip having been readied by a team of para-rescue-aidmen, a light plane with an Indian tracker aboard was expected to land Wednesday afternoon where the missing American Piper Cub plane was located north of Fort Nelson last Saturday.

After the tracker has been landed, ground search for Jack Eberhart, American pilot of the forced-down Cub, will be intensified, RCAF Northwest Command officers stated.

Sgt. L. R. Paulson and Cpl. J. E. Bartlett of North West Air Command para-rescue section, "chased" down to the grounded plane Sunday afternoon and after having

QUEEN OF BEAUTY: Sixteen-year-old Isabel Dudgeon, charming Doughton, Ont., miss, winner of the beauty contest held at the Bruce County Federation of Agriculture's picnic at Walkerton, proudly wears her diadem.

### Set Half Holiday For Summer Fair

Next Wednesday afternoon, July 17, has been declared a half holiday by Deputy Mayor Sidney Parsons so that employees and other residents may have the opportunity of attending the Edmonton Exhibition on Citizens' Day.

The declaration of the half holiday on Citizens' Day of the summer fair is an institution, and has been the practice for many years. Deputy Mayor Parsons appealed to all business houses to observe the holiday.

### Premier Prepares To Take Holiday

Premier Ernest Manning, surrounded by stacks of routine business, Wednesday was applying his attention with vigor in an effort to have it cleared away before he leaves for a three-week vacation commencing Friday morning.

HIS MINISTERS and deputies are still studying the federal government's budget, and as previously indicated it is hoped an official statement will be released before the premier leaves.

Booklets for public distribution, dealing with an explanation of the Alberta Bill of Rights which is now undergoing scrutiny of the Supreme Court of Canada, are now in proof form and are being checked by Mr. Manning. It is understood the booklets will be ready this week.

Mr. Manning's holiday plans were not disclosed.

## ARMY & NAVY

**Waiting is tough on us, too**

For months we've been hoping to present each and every one of you with the new Packards you've ordered, and have been waiting for so patiently.

Last fall, the outlook was good. Packard was confident it would double its pre-war output in 1946. (The factory is equipped to turn out far more than that.)

Look what has happened!

Then came material shortages. Paris shortages. For reasons completely beyond its own control, Packard was able to keep its assembly line moving only nine days in the first quarter of this year.

In the meantime...

Our friends have kept calling us up and asking, "Hey! Where's that new Packard I ordered weeks ago?" Many of these are old friends—Packard owners since 'way back.

But to make life more complicated, every body seems to want one of these grand new Packards. Over 65% of the people out to buy new Packards are now driving some other make.

Honest, it's gotten so we have to answer the telephone or look our friends in the face. We—

Your patience will pay off!

One of these days, the shortage of parts and materials is bound to ease up. And when it does, those twin-assembly lines at Packard will really roll.

Anyway, you can depend on this:

As fast as the factory ships cars to us, we'll do everything we can to deliver yours at the earliest possible moment.

So, we hope you'll be patient a little longer. We're doing the best we can, and so are the folks at the factory!

## Big Fireworks Displays Arranged for Exhibition

### Police Accountant Has Long Service

H. S. Reynolds, city police accountant, recently celebrated his 26th year in police work, and with the exception of about three years, all have been with the Edmonton force. He joined the force here in 1916 as criminal investigation officer and was in charge of registration of alien enemies. At that time his knowledge of the German language came in handy as he was often used as an interpreter.

In 1923 he took over the duties of accountant with the force here and has held that position ever since.

A veteran of the First World War, Mr. Reynolds joined with the 10th Battalion from Edmonton and was discharged on medical grounds in 1916. He later enlisted again with the Royal Flying Corps, and in March, 1918 was discharged with gas and ankle injuries.

He then took over the duties of commanding officer of the Civil Section Military Police, and in 1920 he was loaned to the Dominion Police where he was posted in charge of the Toronto district. In the year when the Dominion and R.N.W.M.P. merged he was re-assigned and returned to Edmonton.

With the exception of the years in the armed forces and his stay down east, Mr. Reynolds has been a resident of Edmonton since 1916, present he resides at 16704 12th street.

ONE SON H. F. REYNOLDS that served for more than six years with the R.C.M.P. during World War. Two Mr. Reynolds is also a member of the executive of the Army, Navy and Air Force Veterans Association here.

### Canadian Army Retires Officers

The following officers, residents of Northern Alberta, have been retired from the Canadian Army for the year ended July 6, Headquarters M.D. 13 announced today:

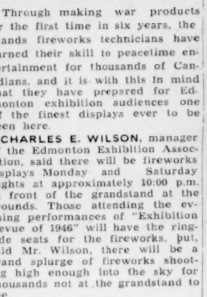

Lt. D. A. Bell, CMC, Eyremore; Lt. G. E. Hardy, CMC, Edmonton; Lt. W. M. Laybourn, CMC, Eyremore; Capt. L. A. Brant, CCS, Wainwright; Lt. A. G. Hays, CMC, Edmonton; J. R. Murray, Gen. List, Edmonton; Lt. P. Baird, CMC, Edmonton; Lt. P. G. LeBlanc, CWAC, St. Albert.

### Youth Accidentally Wounded in Head

The accidental wounding of 15-year-old George Dennis Lyson of Poland, has been reported by the Vermilion detachment of the R.C.M.P. The boy is in hospital and his chances of recovery are said to be "not good."

According to the R.C.M.P., the young lad along with two of his friends, Charles Lewis, 15, and Ray Lewis, 17, were out together on horseback with a rifle. One boy handed the rifle to another and it accidentally discharged, the bullet passing through the head of George Lyson.

The ancient Etruscans invented dental restoration and false teeth by fitting artificial teeth in bronze bands or bridges.

### Police Accountant Has Long Service

Through making war products for the first time in six years, the hands firework technicians have turned their skill to peacetime entertainment for thousands of Canadians, and it is with this in mind that they have prepared for Edmonton exhibition audience, one of the finest displays ever to be seen here.

CHARLES E. WILSON, manager of the Edmonton Exhibition, said there will be fireworks displays Monday and Saturday nights at approximately 10:00 p.m. of the finest displays ever to be seen here.

One of these is the Crimson Flame, a new post-war color to be shown here for the first time. Another is five gold colors, centered by a triple searchlight that sends its beams through the night. There will also be a portrait of His Majesty the King, a Field of Golden Grain, Niagara Falls, with a special set-piece which is being kept secret until the night of the fireworks.

Tuesday, July 16, second day of the Exhibition, has been declared Veterans' Day and there will be a parade of all veterans and their immediate families, and special grandstand attractions for the veterans.

CHARLES E. WILSON, manager of the exhibition association, in announcing the special day for veterans, said a committee consisting of veterans is handling all arrangements. "They are running their own show," he stated. Committee members will be on hand at all other gates to see that veterans get into the grounds.

Each eligible veteran will be given a free ticket to the grandstand, entitling him to attend a special performance of the "Exhibition Revue of 1946." The show for veterans starts sharp at 7:00 p.m. The grandstand then will be cleared for the armed forces and their families. The show for civilians will start at 9:00 p.m. on Tuesday.

MR. WILSON POINTED out that last year a group of hospitalized veterans and their families were at the grandstand show and horse races throughout fair week last year. It is expected that the same case again this year, but the directors decided there also should be one special day set aside when veterans can bring their families and be guests at the exhibition.

### City Orangemen To Hold Picnic

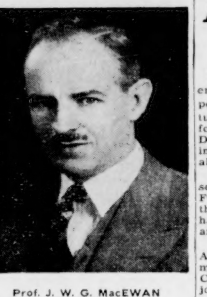

Commemorating the 25th anniversary of the Battle of the Boyne, the City of Edmonton City Council has announced that the City of Edmonton will hold a picnic at Borden Park, July 12.

Children from the Alberta Protestant Home for Children have been invited as lodge guests. Major Clithero of the Salvation Army, deputy chaplain of the Grand Orange Lodge of Alberta will address the gathering. The following Sunday, members will parade from the Trinity Church, for their annual church parade. Ven. Archdeacon W. Leveridge will be in charge of the service. The parade will be led by the Edmonton Girls' Pipe Band.

He announced also that all outside workers in the city's employ will be given a half holiday on that day, and that the clerical staff will be given a half holiday from noon on Wednesday, Citizens' Day.

Essential services will be maintained throughout both days, Mr. Menzies stated.

## Edmonton Journal Edmonton Bulletin

### Livestock Judges Engaged for Fair

Outstanding livestock authorities from Canada and the United States will officiate in the judging at the annual summer fair sponsored by the Edmonton Exhibition Association which opens next Monday.

FRANCIS DARCY, internationally known judge of Holstein cattle, will officiate in this class. The Herford class will be judged by F. T. Gould of Rosalind, and the Aberdeen-Angus by John Officer, Winnipeg.

Prof. J. P. Sackville, University of Alberta, will officiate in the Jersey and Red Poll rings and Joe Johnson, alias the U of A will judge the Shorthorn cattle.

THE AYRESHIRE CATTLE will be judged by Prof. J. W. G. MacEwan of the University of Saskatchewan, and this popular judge will also judge the Percheron horse classes.

N. J. Shopland, Rochester will judge all the sheep breeds and Roy Marler, Bremner will be the adjudicator in the swine classes.

BOTH ARE LEADING authorities in Canada's livestock industry, and are judges for the first time in an Edmonton show ring.

Walter Ross, of the school of agriculture, Ottawa will judge the Clydesdale classes and will also preside in the Belgian horse classes.

### Coal Controller Is City Visitor

Important conference with Northern Alberta coal operators was being held here Wednesday as a result of the visit to Edmonton of E. J. Brunning, Ottawa, Dominion coal controller.

Mr. Brunning declined to state the purpose of the conference until he had discussed the current coal position with the operators but said he would probably issue a statement after the conference.

The coal controller is touring coal producing areas of the west on his present trip.

### Expect Big Influx During Exhibition

Railway officials on both Canadian National and Canadian Pacific Railway lines, are anticipating wide influx of visitors to Edmonton during the exhibition week.

A spokesman from the office of the CPR will be standing by with extra coaches ready to be put in service as the need demands.

### Plan Half Holiday For War Veterans

Veterans of World Wars One and Two employed by the City of Edmonton will be given a half holiday on Tuesday, July 16, Veterans' Day at the Edmonton Exhibition.

Essential services will be maintained throughout both days, Mr. Menzies stated.

## Eight New Officers With Police Force

Eight new policemen have been enrolled into the ranks of the city police force and another has resigned during the past six months.

Deputy Constable Alex Riddell, in charge of the force during the absence of Chief Rege-Jennings.

ALL THE NEW constables have been seen in the armed forces. Following the leave of absence from the force since 1943, T. S. Botsford has returned after more than two and one half years with the RCAF.

Latest additions to the force are: A. W. McCann, who served 18 months with the Canadian Provost Corps; David J. McIntosh, who joined the Edmonton Regiment in 1940, served in Italy and Northwest Europe; and T. S. Jones, five years and eight months overseas with the Canadian Army.

FOUR YEARS and six months as regimental sergeant major in the Canadian Provost Corps was spent by H. N. Tomlinson. A. J. Tait has nearly two years with the Canadian Provost Corps to his credit; J. McCallum and W. S. Jeandron spent four years with the Royal Canadian Navy, and G. D. Watson was with the RCN Signals from May 1940 to Aug. 1945.

The men have all been formally enlisted with the force, issued with uniform and are being made ready for duty.

## Materials Shortage Halts Warehouse Construction

With no assurance for delivery of brick for at least six months, work on the new \$175,000 warehouse of the C. Woodward Ltd., stores on 6th street and 163rd avenue has been halted until next spring.

John W. Butterfield, manager of the company's Vancouver store and supervisor of all Woodward stores, said here Wednesday.

MR. BUTTERFIELD who was general manager of the Edmonton store before going to Vancouver some years ago, is a business visitor here, a guest at the Macdonald hotel.

Shortage of bricklayers is also causing delay in the completion of a new top-storey addition to the company's retail store on 101 street, Mr. Butterfield stated.

"We have been told that brick for the warehouse will not be available for at least six months and it may be 12 months," Mr. Butterfield said.

"ALTHOUGH A START has been made on the structure we have decided not to proceed further until materials are available. Construction halted in midwinter would probably result in serious frost on the building and the cost of the severe frosts," he explained.

Although brick is available for the store addition on 101 street, it has been found impossible to secure bricklayers to complete the job.

"With one of the greatest building booms in years in progress we are informed there are only about 35 bricklayers in the City of Edmonton," Mr. Butterfield said.

THE WORK ON the addition would not take many weeks to complete if labor were available, he added.

On the other hand the merchandise supply situation is steadily improving, the store official said.

"Some of our buyers have returned from Britain with a considerable amount of goods and the situation as to supply seems fairly good considering the general situation," he added.

Mr. Butterfield will canvas the building material and labor supply situation more fully before returning to the Pacific coast.

## Teachers' Leave Plan is Approved

Principal of Sabatell school for Edmonton school teachers was approved at a meeting of the Edmonton Public School Board held in the Civic Block Tuesday evening.

Regulations as to teachers' leave plan will be announced at a later date. It was suggested that the leave might be applicable to 10 years' service and that it be spent in a manner directly profitable to the school.

THIS MATTER was brought up from a brief submitted by the teachers' association on "Matters Pertaining to Educational Standards."

From the same brief, approval was given to a suggestion that eight additional teachers be employed to provide stenographic assistance to school principals and teachers. These extra stenographers will be appointed as of Sept. 1, 1946.

On the recommendation of R. S. Sheppard, superintendent of schools the following appointments were approved: Miss J. Isabel McNeil, Westview High School; Miss Grace A. Thompson, McDougall High School; N. E. Long, McCreary High School and McCauley Intermediate School.

ON VIEW OF the recent move on the part of the city council to close the Civic Block on Saturday mornings, the school board officials will also be closed on that day.

Names approved for Edmonton's three new public schools, now under construction are Victoria Park, Delton and Mill Creek. The latter for the school being erected in the Ritchie district.

The Piper Cub machine, one of two being ferried from the Eastern States to Alaska, became missing more than a week ago north of Fort Nelson. The plane was located Saturday.

### Second Diphtheria Case is Reported

The second case of diphtheria within a week has been reported to the city health office, and also two cases of scarlet fever, according to Dr. G. M. Little, medical officer of health.

Both cases of diphtheria and the carriers are confined to one family of the city in the northeast section of the city. All are recovering.

DR. LITTLE SAID the source of the disease has been traced to the mother of the family, one of the three children is Victoria Park, Delton and Mill Creek. The latter for the school being erected in the Ritchie district.

Mothers cases reported to the health department during the week ended July 6 totaled 187, compared with 186 the previous week, an increase of 23. There was a decline in the number of chickenpox cases reported, and 17 in the number of cases of mumps.

### Gunn Hotel Keeper Is Fatally Stricken

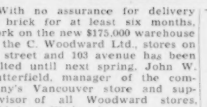

The death of 30-year-old J. D. Yester, hotel keeper at Gunn, has been reported by the R.C.M.P. detachment for that area. The man is believed to have died of a heart attack after a slight altercation in the beer room of his hotel. It has not been decided as yet whether an inquest will be held. The R.C.M.P. officials think it unlikely.

## No Organization Of Auto Dealers

Although a used car dealers association has been formed in Vancouver designed to protect members against wartime prices and black market activities no action has been taken by Edmonton used car dealers to form a similar organization.

It is possible, however, that the dealers here will form an organization after a study of the operation of the coast body has been made.

The mechanism of Big Ben giant London clock, includes a 13' foot pendulum and numerals two feet high.

## Warmer Weather Forecast Here

Clear, warm weather coupled with a light variable wind was forecast in Edmonton and district Wednesday and Thursday. Estimated high temperature Thursday is 78.

No precipitation was recorded by weather officials for the past 24 hours. High temperature Tuesday was 70, recorded at 3:30 p.m. Low was 53 at 4:30 a.m. Overnight low was 49 at 2:30 a.m. Wednesday. Estimated overnight low tonight is 57.

## Girl Chased

Report that a man chased her daughter with a gun in his hand was received by city police Tuesday evening from Mrs. Jessie Crank, 12139 96 street. The woman stated that the incident occurred about 10:30 p.m. as her daughter was returning home along 95A street, north of 119 avenue. Police are investigating.

## Layer of Flies Stops Traffic

**LA CROSSE, Wis. (AP)—**Something new in traffic hazards today: an up-vehicle movement over the Mississippi river bridge. A layer of sawdust files, estimated at about six inches deep, was shoveled onto the bridge for two hours. Highway workers sprinkled sand on both approaches to open the span, to get traffic rolling again.

## Disposal Squad Has Tough Task

LONDON, (CP Cable)—The current spell of warm weather is complicating the task of Royal Engineers disposal squads in the recent

The bomb fell in 1940 in the yard of a tar distillery about 50 yards from the bank of the Thames in the London area. Its only 30 feet below ground level, the bomb was visible, but the seepage of water

The bomb is only 250 pounds, but thousands of man hours have been

As it is, he said he and the liberal type of Republican which he represents have been given a useful leg-up.
